

News from BSM Actuators & Controls

Dear Relation,

Following our buyout at the end of 2015, we are pleased to announce that as of December 1, 2016, we will change our company name from BSM Actuators & Controls to **Spacx Actuators & Controls**.

At Spacx Actuators & Controls, we remain firmly committed to continuing serving our clients providing the same high quality products and service on which we have built our reputation from the beginning. We have changed our name and freshened our company look, but we are still the same ambitious organization!

With this name change we perceive an opportunity to focus more on our different product groups and enhance our capabilities. So, as well as producing our own line of actuators and control systems, we are also the officially Appointed Distributor for Emerson Bettis, Hytork and EIM actuator products and an officially recognized Distributor for Imtex valve communication products in the Benelux.

Spacx Actuators & Controls will continue to operate in its current structure with the same management team and your contacts will remain un-changed, but, at the same time, we will change all email addresses to @spacx.nl to reflect our new brand. Our old email addresses will continue to be operational for the foreseeable future.

Our new website will be located at www.spacx.nl, so please feel free to check on-line to see the latest news on our company!

We wish to thank you for the courtesies you have shown us in the past, and hope that you will let us continue to serve your company in a way that is mutually beneficial to both our organisations in the future.

If you have questions about our change of name or the products and service we can provide, please feel free to contact us at your convenience.

Kind regards,

Arno Kosak
