Subject: Business partner – SPACX Actuators & Controls now represents
Bettis, Biffi, EL-O-Matic and Hytork products.

Dear Customer,

We are proud to announce that Emerson Automation Solutions, Actuation Technologies extended the existing Emerson - Bettis Authorized Distribution Channel agreement with SPACX Actuators & Controls, so now all of the following Emerson brands are included:

- Bettis
- Biffi
- El-O-Matic
- Hytork

Within SPACX Actuators & Controls resides decades of experience and technical knowledge of these specific Emerson products.

This extended Authorized Distribution Channel agreement with SPACX Actuators & Controls will therefore add value, support and service to the Emerson clients in the Benelux area.

About SPACX Actuators & Controls:

SPACX Actuators & Controls is a well-known valve automation centre based in Boxmeer, the Netherlands.

They supply valve automation systems to Exploration and Production Contractors, Oil and Gas companies, Valve Manufacturers, Valve Dealers and End-Users.

As an independent solution provider, SPACX can automate any brand, size and type of valve.

SPACX Actuators & Controls strives to provide their customers with high-quality, standard and tailor-made valve-actuators within short lead times.

To achieve this, they use the latest technologies for design and manufacturing as well as a stock and supply strategy.

They are dedicated to continuous improvement and innovation to enhance product development.

BETTIS

ELMatic™

HYTORAK®

Sincerely,

Jon Taylor,
European Sales Director
