To all Benelux Bettis Customers

Subject: New business partner - Spacx Actuators & Controls - for Bettis Scotch Yoke product range.

Dear Customer,

Emerson Automation Solutions, Actuation Technologies is proud to announce that Spacx Actuators & Controls is the new Benelux Authorized Distributor Channel (ADC) for the Bettis Scotch Yoke product range. With their knowledge and experience as an independent valve automation solution provider, Spacx Actuators & Controls will strengthen our Bettis business for the Benelux countries.

About Spacx Actuators & Controls

Spacx Actuators & Controls (formely known as BSM Actuators & Controls) is a well-known valve actuator manufacturing company based in Boxmeer the Netherlands. They supply valve automation systems to Exploration and Production contractors, Oil and Gas companies, Valve Manufacturers and Valve Dealers. As an independent solution provider Spacx can automate any brand, size and type of valve.

Spacx Actuators & Controls strives to provide their customers with high-quality, standard and tailor made valve actuators within short lead times. To achieve this, we use the latest technologies for design and manufacturing as well as a stock and supply strategy. We are dedicated to continuous improvement and innovation to further our product development.

Bettis product offering by Spacx Actuators & Controls

Spacx Actuators & Controls will be able to supply all Bettis Scotch Yoke valve actuators including CBB, CBA300 and G-Series product range, Bettis electric actuators product range and all service related products. Spacx Actuators & Controls will stock Bettis actuators, replacement parts and dedicated personnel ready to handle our Benelux customer with short lead time. Please contact Spacx Actuators & Controls at:

About Emerson Automation Solutions, Actuation Technologies

The Emerson Automation Solutions, Actuation Technologies (formerly known as Valve Automation) business unit consolidates Emerson's vast array of valve automation products and services. The business unit solves actuation challenges with industry-proven brands – **Bettis™**, **Dantorque™**, **EIM™**, **EL-O-Matic™**, **FieldQ™**, **Hytork™**, and **Shafer™**. Whether you require pneumatic, hydraulic, electric, or gas-hydraulic valve automation products and services, Emerson's global supply network shortens project lead times by being your single solutions provider. Our world-class facilities in strategic regional hubs provide you with fast high-quality service. Maintenance and service can also be provided; no need to contact various consultants and parts manufacturers for diagnosis and repair.

Sincerely,

Alessio Rubini 
Sales Director Europe
